Environ Facials

Environ was formed by renowned plastic surgeon Dr Des Fernandes. The main aim of the product is to correct any chronic deficiency of vitamin A, anti-oxidants and essential nutrients that may be lacking in our skin, due to environmental damage.

Environ's focus is to rehabilitate the skin's natural barrier instead of promoting over exfoliation. Environ is suitable for all skin types, all ages and all photo types, men and women. The products used all include variations of Vitamin C, which is a special oil soluble version, avoiding the additional harmful preservatives, colorants and fragrances.
